Dear Danell

Thank you for catching up with me in person to confirm your resignation date for this year. While we knew that this time would come it is sad none the less.

You have been an amazing inspiration within our school – to your students and their families, to your colleagues and to me personally. Thank you for all that you have given to our community. Your generosity of heart, deep professional knowledge and deep care of our children will be long cherished.

I hope that working with our first co-education class in Year 4 is something that you will long remember with pride and satisfaction. I know that the families you cared for will miss you a great deal. I also hope that you can be proud of what you achieved through our co curricular program with the establishment of The Science Club.

As you move back to the USA I wish you and your family all the prosperity and happiness that you have found here in Australia. I look forward to attending the farewell wine tour in your honour!

Kind regards

Rosalie
